To Whom It May Concern:

RE: HAZELWOOD CONSTRUCTION' S SUPPORT OF BC CHILDREN'S HOSPITAL

I write this letter on behalf of Hazelwood Construction and their dedicated staff.

Last year, Hazelwood Construction made a very generous \$10,000 to BC Children's Hospital. This donation supports the most urgent needs of the only pediatric hospital in BC.

This year, their generosity and competitive spirit are taking things to a whole new level. Hazelwood Construction will once again be making a \$10,000 donation in 2019, however, they would like to issue a friendly challenge to other construction companies in the Nanaimo area to also make a donation. By pooling donations and generosity within the Nanaimo construction industry, Hazelwood Construction is hoping for an even larger impact to BC Children's Hospital in 2019.

On average, 22 children from Vancouver Island are admitted to BC Children's Hospital each day. As the province's only full-service acute-care hospital, it serves the medical needs of one million children in BC and the Yukon. It is the only hospital in the province dedicated to treating critically ill and injured children and the only pediatric teaching hospital in BC, providing highly specialized training to the medical professionals of tomorrow.

We are grateful that Hazelwood Construction is engaging with their local industry to demonstrate community leadership, and to raise funds for BC's most vulnerable kids.

If you have any questions or concerns, please contact me at 250-380-1528 or via email at scerisano@bcchf.ca.

Sincerely,

A handwritten signature in blue ink, appearing to read "Shaun Cerisano".
