

Company Name: IWCD - Island West Coast Developments Ltd.

Project Name: Cowichan Lake Physio (Lake House Physio & Therapy)

Project Value: \$2,100,000.00

From concept to completion, IWCD proudly unveils the new Lake House Physio & Therapy clinic, a captivating addition to the Lake Cowichan community. This custom-built facility, designed with a stunning west-coast theme, offers residents a comprehensive range of physiotherapy, IMS, and massage therapy treatments aimed at rehabilitating injuries and promoting overall wellness. Inspired by nature, the clinic provides a serene environment conducive to healing, allowing patients to embark on their journey to recovery in a tranquil setting. With its commitment to both aesthetics and functionality, the Lake House Physio & Therapy clinic stands as a testament to IWCD's dedication to delivering exceptional projects that enhance the well-being of communities.

The Lake House Physio & Therapy clinic showcases innovative design and functionality, utilizing concrete tilt-up building techniques and a wood-framed roof to create a spacious and modern 4456sqft facility. Inside, patients are greeted with 8 exam rooms, a generous gym area, and a cutting-edge physio & exercise room, catering to a wide range of rehabilitation needs. With the community's well-being in mind, the clinic features a welcoming reception area, fostering a sense of warmth and comfort for visitors. Ample parking and bike racks ensure convenient access for clients, while a thoughtfully designed office space includes a cozy kitchen area for staff to recharge. Additionally, the clinic's versatility is highlighted by an available CRU space, offering potential for further community engagement and service offerings.
